

# Did you know there are still wild horses living in the American West?

But at the demand of taxpayer-subsidized cattle ranchers, our wild horses are rounded up by helicopter and separated from their families forever...to make way for more cattle

Once wild & free and living on only 4% of our public lands, now over 55k wild horses languish in Bureau of Land Mgmt long term holding pens at taxpayer expense...and constant threat of slaughter

Go to [ww.saveourwildhorses.net](http://ww.saveourwildhorses.net) and see what you can do to help save our wild horses today
